## BUDGETS ARE APPROVED BY COUNTY BOARD

Approval was given to the \$474,000 budget for the Upper Adams Joint School System at a meeting of the Adams County Board of School Directors Monday evening at the office of the county superintendent of schools, Carlisle St.

The 1956-57 budget for Upper Adams was one of several submitted to the county board for signature and forwarding to the state Monday evening.

They included Abbottstown, which plans a budget of \$23,940 and a 20 mill real estate, \$10 per capita tax; Conewago Twp., which will spend \$90,697.20 and have a 30-mill, \$5 per capita and \$10 "personal" tax; McSherrystown, which will have a budget of \$6,417.60 and place a \$5 per capita tax and Reading which will spend \$82,596.74 and levy a 30-mill and \$10 per capita tax.

**Budget Up \$81,000**

The Upper Adams budget of \$474,000 is \$81,000 higher than the \$393,000 budget of a year ago. The 1956-57 budget calls for expenditure of \$5,806 for federal control, \$295,494 for instructional services; \$45,751 auxiliary agencies including transportation; \$32,050, operation of plant, \$12,500 maintenance of plant, \$23,900 fixed charges, \$52,000 debt service and \$5,500 capital outlay.

Income is expected to include a balance of \$4,000 from this year, \$32,887.40 from Arendtsville, \$30,829 from Bendersville, \$73,051 from Biglerville, \$110,189.20 from Butler, \$132,246.80 from Menallen, \$71,186.60 from Tyrone plus \$10,000.

## ABBOTTSTOWN NEEDS RELEASE FROM JOINTURE

The Adams County School Board Monday evening gave approval for Abbottstown to join the Lower Adams Joint School system "if and when" it is released from its present membership in the Conewago Joint School system.

The Lower Adams district had requested the approval to permit it to proceed with inclusion of Abbottstown in its district if the presently expected dissolution of the Conewago jointure occurs.

Reports at Monday night's meeting showed that plans are underway to establish a new "Administrative Unit No. 2," which could go into effect only if the Conewago Joint School system dissolves. A decision on dissolution of the Conewago jointure is expected at a meeting at East Berlin Friday night.

**No Agreement Drawn**

Monday night representatives of the East Berlin, Reading and North Adams joint school boards met at the office of Attorney Eugene V. Bullett, here to survey the details of a proposed jointure of the East Berlin, Reading and Conewago Independent districts with York Springs, Latimore and Huntingdon boards to form "Administrative Unit No. 2."

Conewago Independent was not represented at the meeting. East Berlin's representative was reported as seeking more information. Monday night's meeting was reported as a review of the position of the various districts, but there was no attempt to work out a possible agreement to be considered by the various boards involved at a meeting to be held in York Springs next Monday.

**Need 100 Pct. Agreement**

All action awaits Friday night's meeting at East Berlin, it was reported. If Conewago jointure dissolves at that meeting, then the move of Abbottstown to Lower Adams jointure and formation of "Administrative Unit No. 2" is indicated.

If Conewago jointure cannot agree to dissolve, the other actions will have to continue to be held in abeyance.

At a prior meeting of Conewago jointure at which a vote was taken on dissolution, Reading, Paradise Twp. and Abbottstown voted in favor of dissolving, and the East Berlin directors and four of the five Conewago Independent directors opposed dissolution. To dissolve a jointure there must be a 100 per cent agreement of the boards, school officials said.

## AUXILIARY OF HOSPITAL NOTES ITS 35TH YEAR

A 35th anniversary celebration and plans to hold an "open house" in conjunction with the opening of the new hospital wing highlighted the regular meeting of the Women's Auxiliary of the Warner Hospital Monday afternoon at the hospital.

Walter Dillon, administrator of the hospital, discussed with the group the proposed "open house" to be held prior to the time patients are admitted to the new hospital wing. Members of the auxiliary will act as hostesses for the event. The auxiliary also plans a bazaar in connection with the "open house." Handmade articles and homemade foods will be sold.

Dillon, who hopes for a "wide viewing" of the new facilities, said additional space would be available for the hospital snack bar when the sun porch of the men's ward is converted into a lobby and corridor. Dillon stressed that the addition would be an innovation in hospital decorating. Pastel colors will be used for the walls and figured drapes will hang at the windows. Bids for the new x-ray rooms will be opened July 9, Dillon said.

### Mrs. Eberhart Reminisces

Observing their 35th anniversary, the auxiliary heard a brief history of their activities by a former president, Mrs. George F. Eberhart, who was the first president of the reorganized auxiliary.

Organized shortly after the Warner Hospital, the group enjoyed an active but short existence. Things began to lag in 1926 or '27. In 1930 the late Dr. J. McCrea Dickson asked Mrs. Eberhart to visit other hospitals and to observe their auxiliary activities. The following December a meeting was called in the Strand Theater and the auxiliary took on new life. "Then, \$101.39 in the treasury was quite a thing — today we have a thousand." After the meetings, Mrs. Eberhart recalled, the group would usually take a tour of the hospital buildings and in that way discover auxiliary projects.

Other highlights called by the former president were: a benefit play at Bendersville in fruit grocers' hall called "Clarence"; the donation of \$100 in 1938 to a new ambulance; \$939 collected in 1939; and the donation of venetian blinds which were placed on every window in the hospital in 1940.

### Charter Member There

Mrs. Eberhart further recalled the annual food drive and its significance in the community. She quoted from a "Here and There" column of The Gettysburg Times, dated in the late 30's, that "2,143 cans and jars of fruits and vegetables were collected during the annual food drive." Many items were homemade by members of the community.

Mrs. H. S. Crouse, of Littlestown, widow of Dr. Crouse, was introduced.

## Expect President To Start To Gain Weight; Has Quiet Day

By STERLING F. GREEN

WASHINGTON (P)—President Eisenhower's doctors said today they look for him to start gaining some weight soon. He still weighs 162 pounds—seven less than when he was hospitalized June 8.

An 8:20 a.m. EDT bulletin from Walter Reed Army Hospital reported:

"The President had a very comfortable night's rest. He slept almost continuously nine hours. His temperature is 98.2, pulse 78, blood pressure 120 over 70 and respiration 18—all of which are normal.

"He is holding his present weight. His condition continues to progress very satisfactorily. His spirits and morale are high."

### To Be Discharged Soon

Eisenhower is looking forward to discharge from the hospital Friday or Saturday. He plans to go to Gettysburg, Pa., to spend his 40th wedding anniversary Sunday with Mrs. Eisenhower at their farm home.

White House press secretary James C. Hagerty said the doctors told him they are "satisfied that he (Eisenhower) is not losing weight, which could happen on these cases at this time" of convalescence.

"They say," Hagerty added, "that it is just a little matter of time until he starts gaining."

### Having Quiet Day

Hagerty predicted a quiet day for the President. The press secretary said this morning that so far as he knew the White House staff had no government business to take up with Eisenhower.

The doctors have said Eisenhower will be discharged from Walter Reed late this week. Whether he will announce his political plans during his stay at Gettysburg remained uncertain. Hagerty previously ducked a question as to whether he knew those plans.

Asked last night whether Eisen-

hower would hold a news conference at Gettysburg so the question could be put directly, Hagerty said:

### Hasn't Discussed Future

"It's a little too early to cross that bridge."

He insisted Eisenhower has not yet discussed his political future with anyone, except possibly his family.

Eisenhower may remain at Gettysburg for a time before returning to the White House, Hagerty told newsmen, but he will not go back to the Army hospital except perhaps for a checkup later on.

His release will be a "complete discharge," Hagerty said. Previously he had indicated Eisenhower would leave Washington by automobile Friday or Saturday, if his recovery continues.

Hagerty disclosed that Eisenhower plans to participate in a nationwide civil defense alert and government dispersal test July 20-26.

Band members are urged to report Thursday evening in time to begin playing at 8 o'clock.

## BULLETINS

WASHINGTON (P)—The biggest road building program in the nation's history—33 billion dollars for broad, straight highways crisscrossing the country—was passed by the House today.

The House passed the conference report on the program by voice vote in a few minutes and with no debate.

The measure now has to be approved by the Senate.

GUATEMALA (P)—President Carlos Castillo Armas put the army in control of Guatemala today after demonstrations in which four students were killed.

The president declared a state of siege—modified form of martial law. The army, assuming control, asked the cooperation of the people to avoid further clashes.

## FARMERS TO GET SOIL BANK CORN ACREAGE SOON

Adams county's farmers within the next few days will receive notice of their Soil Bank corn base acreage for 1956. J. Glenn Miller, office manager for the county Agricultural Stabilization and Conservation Committee, announced today.

The Soil Bank corn base acreage will replace the corn acreage allotment sent last spring to the farmers in advance of planting, and will be slightly larger than the original corn acreage allotment.

The earlier allotment was determined on the basis of a national corn allotment of approximately 43,000,000 acres. Miller said.

In enacting the 1956 Soil Bank legislation however, Congress replaced the 1956 allotment figure with a nationwide base acreage of 51,000,000 acres, or about 17 per cent above the former allotment.

### Must Sign By July 20

Miller said that a farmer, to earn acreage reserve payments, must place in reserve specified acres of his corn base and agree not to harvest corn or any other crop from them. He can then earn payments at the rate of \$1 per bushel based on the yield determined by the county Agricultural Stabilization and Conservation committee.

The maximum acreage that may be placed in the corn reserve is one-half the individual farmer's corn base, or 50 acres, whichever is larger — provided the larger figure does not exceed the individual farmer's soil bank corn base acreage.

The minimum amount of corn land that may be placed in reserve is the larger of ten per cent of the base acreage or five acres, or the entire allotment in case it is below five acres.

Agreements for participation in the corn acreage reserve will be available at the county ASC office by July 20 and must be signed by July 20.

## SURVEY SHOWS 518 RETARDED NEED CLASSES

Adams County with five special education classes now will eventually have 22 if it is to meet the needs of the children in the county, Miss E. Elizabeth Rutledge, supervisor of special education, told the Adams County School Board at its meeting Monday evening in the office of the county superintendent of schools.

Her report was based on a survey of the 8,164 children in Adams County schools completed during the last several months in accordance with a new act of the state legislature calling for such a survey to determine special needs and asking the county boards to present plans for meeting those needs.

At Miss Rutledge's suggestion, the board Monday evening simply approved the report prepared by the county office from information furnished by the various school districts, and asked County Superintendent H. Edgar Riegle to contact the various jointures and districts to determine what plans the local boards may have to meet their local problems for special education before an overall county plan is attempted.

### Over 500 Are Retarded

The report presented Monday showed 64 youngsters now rolled in special classes are being provided with transportation and that if sufficient classes were established there would be 260 who would need transportation to special classes.

According to the report, out of the 8,164 children in school, 518 are listed as mentally retarded, but can be educated. Of that number 74 are already in special classes.

Miss Rutledge pointed out that "retarded in this case generally means that the youngsters are slower than the rest of their classes and need some special help

## NUCLEAR BLAST THOUGHT TO BE SET OFF TODAY

TOKYO (AP) — The United States may have set off another big nuclear blast today at the Bikini testing grounds, Japan's weather bureau reported.

The Central Meteorological Observatory said its instruments from Hokkaido in the north to Kyushu in the south picked up marked atmospheric pressure changes similar to those recorded after the May 21 test and again on May 28.

In Washington, an Atomic Energy Commission spokesman said there would be no comment on the report.

The spokesman noted the AEC had declined comment on a similar report May 28 and planned none on future reports of the same type.

**Announced Ten Tests**  
He said that Adm. Lewis Strauss, AEC chairman, had announced previously that "about 10 tests would be carried out in the current series that began May 21."

First indications of a possible blast were earth tremors recorded on the seismographs at Matsushiro, in central Honshu, at 3:20 a.m. Just three hours later gauges began to pick up the slower-moving atmospheric pressure waves, and these continued for about 60 minutes, the observatory said.

As they had on May 21 and 28, the waves reportedly came from the direction of the Bikini Atoll, about 2,200 miles southeast of Tokyo.

## YOUNG WOMAN SLAIN IN AUTO

SCRANTON, Pa. (AP)—Mrs. Isabelle Caraballo, 20, Tunkhannock, was shot and killed today while seated in an automobile three blocks from the home of her mother.

State police of Tunkhannock took into custody for questioning two men who were with the woman at the time of her death. They are Herbert K. Gardner, 26, Greenville, S.C., and John L. Rundle, 25, R.D. 3, Tunkhannock.

State troopers Mauro Forte and Gerald Bowers said Gardner said the trio had been in a tavern last night and that they then went to a service station for gas. While there, Gardner told them, state police said, that he removed a .25 calibre automatic pistol from a glove compartment of the car and was looking at it when it accidentally went off and the bullet struck Mrs. Caraballo in the mouth. She was dead when removed to a doctor's office.

Mrs. Caraballo was married to Arthur Caraballo, a Philadelphia bottling company employee, in February and lived in Philadelphia several months. She was separated from him June 16 and had since been living with her mother, Mrs. Eva Robinson, at Tunkhannock.

discussion. Others on the panel included Attorney Eugene V. Bulleit, retiring President Jones and H. Edgar Riegler.

Attorney Bulleit heads a committee, which includes Jones, Riegler, Johnson and Rev. Victor Meredith which has been asked to outline Rotary's position toward various charitable endeavors. During the discussion Monday evening the committee asked all members of the club to make suggestions in writing to Chairman Bulleit.

The discussion was based on the question of whether the organization should confine itself to greater effort in certain types of charitable work, or seek to spread its effort to cover all the many requests for funds.

Also posed as a question was whether the group should donate money alone, or volunteer the service of its members for appropriate activities.

Dr. Johnson posed the question: "If the club gives \$5 to a charity, that is 74 cents a member. Is that enough? Or should we as a club, if we can't give more in cash, provide more in service and enthusiasm to help these various worthy causes?"

**Some Charities Suffer**  
Riegler held that "by using our influence as individuals, by talking and spreading interest, we can help many charitable organizations profitably."

Dr. Johnson and Attorney Bulleit agreed "there are some local organizations and institutions suffering today because the town has not provided the money to Community Chest that it should."

Named as the committee to arrange for a float in the July 4th parade were Roy Hammond, Harold Dunkelberger, Julius Swoppe, Ray Smelzer, Edwin Minter, Dr. Oyster, and Philip Jones.

Fifty attended the meeting. Julius Swoppe led group singing accompanied by Dr. Fred Shaffer.

The Air Force said the pilot of the F86 Sabre Jet had radioed last shortly after noon that he was off the eastern tip of the northern Japanese island of Hokkaido, some 20 miles from the Russian-held Kurile Islands. He then had about two hours' fuel left.  
The pilot's identity was not announced but the Air Force said he was from the 4th Fighter Wing, stationed at Chitose air base.

The stabbing took place, police said, about 3:45 a.m. while Mrs. Fitzpatrick's eight-year-old daughter lay sleeping in an adjoining room.

## COUNTIAN IS HELPING SAVE LIFE OF GIRL, 9

PARKS AIR FORCE BASE, Calif. — Airman Third Class Dale W. McDannell, son of Mr. and Mrs. Earl W. McDannell, Orrtanna R. 1, is one of a group of air police trainees here who "adopted" a nine-year-old San Leandro, California, girl.

Young Dianne Ross is a victim of a rare type of anemia which robs her of precious red corpuscles, making life without continual transfusions impossible.

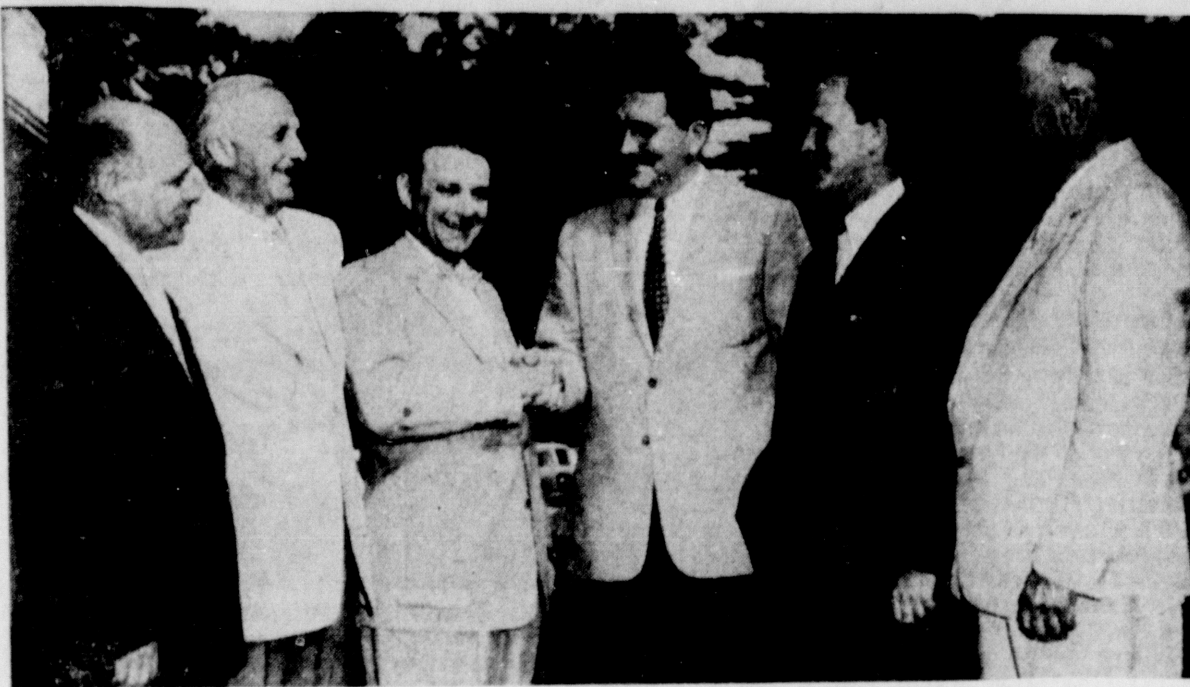

In her nine years, Dianne has used over 300 pints of blood donated by friends and relatives. She was heavily in debt to hospitals and blood banks when the men heard of her dilemma and offered their help.

The air police students asked to be allowed to "adopt" her; to make her fight for life their personal responsibility. They undertook the task of repaying Dianne's debt and when they are again eligible to give blood they intend to start fund.

Although the airmen will soon complete their training here and be transferred to every corner of the world, they have arranged to donate blood in their ward's name, wherever they may be.

New York City had 1,052,000 people over 65 years old compared to 176,230 in 1920.

## RAAB CHICKEN WINS HONORS AT BANTAM SHOW

A black Cochon bantam hen, owned by Herbert G. Raab, Gettysburg R. 3, was named the champion chicken of the show at the 14th annual Honesdale Summer Show Saturday.

Competing against more than 250 entries for the "Cochon Jamboree" held under sponsorship of the Wayne County Poultry Association, the Raab entry won first title of best black Cochon bantam female and champion featherleg and then was named as the champion of the show.

At a banquet Saturday night at Honesdale, Raab was presented by R. C. Wildenstein, president of the Wayne County Poultry Association, with a trophy for the show championship, the American Bantam Association special plaque as champion featherleg, the American Bantam Association special medal for best black Cochon bantam female, the "Cochon plaque" given by the Wayne County Association for best black Cochon and a set of dishes, a special award for best Cochon bantam and an etching by Roy L. Getz awarded for best Cochon bantam, female.

The York Poultry Press also announced plans to put a special article about the three-year old Raab entry in a forthcoming issue. Her second year in competition, the entry won the championship of the Lehigh Valley show last year at Allentown. Raab said he may enter the bird in the show in connection with the 83rd annual convention of the American Poultry Association at Buffalo, N. Y. August 19 to 22 before retiring her from competition.

While Mr. Raab and his parents, Mr. and Mrs. Herbert Raab, R. 3, have been breeding bantams for 25 years, none previously won as high honors as the current entry. The championship Cochon is of the same blood line as Cochon bantams presented by the Raabs some time ago to President and Mrs. Eisenhower.

Another entry of the Raabs at the Honesdale show won second place out of 28 entries, in a white Cochon bantam male class.

Many of those in special classes in secondary school would perhaps never have been in special classes in elementary school, because they would be of a sufficiently high intelligence to master the grade school work, but would find the work in secondary schools more difficult.

Her report also showed the county to have 225 "mentally gifted" students. There are no special classes planned for the "genius" type at present, she said, "but the fact that the state has asked they be included in the survey would indicate that it is possible that in the future there may be some special training for the mentally gifted."

### Only 18 To A Room

The report showed 651 youngsters who need speech correctional training, of which 292 are in the primary grades, 161 in the intermediate, 138 in junior high school and 60 in senior high school. Of that number 331 are receiving special training at the present time.

Of 37 listed as mentally retarded but trainable, 16 are in a special class, 11 in regular classes, ten at home; eight blind youngsters are all at home; of 67 hard of hearing children 30 are in special classes. There are 83 listed as

### AF Film Shown

An Air Force film, newly released through the Strategic Air Command Headquarters, was shown at the June meeting of the Littlestown Spotters of the Ground Observer Corps on Monday evening at the engine house. Sgt. James Enley showed the film, which concerned the latest types of fighter and bomber aircraft.

Information pertaining to the issuance of Civil Defense identification cards for all currently enrolled members of the local corps was discussed. Due to the delay in the shipment of the cards, distribution of them will be effected at a later date.

Chief Observer Paul E. Hiltbrink Jr. conducted the session in the absence of the supervisor, Gerald W. Daley. Lt. John E. Mosteller, of the Baltimore Filter Center, spoke briefly regarding the disapproval of the local post's request for a guided tour of the Andrews Air Force Base at the present time, explaining that prospective tours are now in the making for all GOC posts, beginning on September 1.

Members present at the meeting were given their amount of hours served at the local observation post, up to and including June 9. Preliminary plans were also discussed for holding the next monthly meeting in the form of an outing and wieners roast at Caledonia Park. Further details will be announced as arrangements are made.

## MARK PASTOR'S ANNIVERSARY AT NEW OXFORD

A surprise observance of his tenth anniversary as pastor of the Abbottstown and New Oxford Reformed Churches was held Sunday evening in the social room of Emmanuel's Reformed Church, Abbottstown, for the Rev. A. C. Rohrbach, by approximately 200 members of the two churches.

The observance was planned by the joint consistory of the New Oxford Evangelical and Reformed Church, comprising St. Paul's Church at New Oxford and Emmanuel's at Abbottstown.

Sterling Bair, Abbottstown R. D., president of the Men's Brotherhood, was the master of ceremonies. On behalf of the two congregations he presented the pastor and Mrs. Rohrbach with a wooden pyramid patterned in scale after the famous Cheops Pyramid in Egypt.

### Symbolic Pyramid

The pyramid, its base and twelve symbolic articles inside it, was made of 19 different kinds of wood, each symbolic of the accomplishments of the congregations during the past ten years.

Represented were such accomplishments as the establishment of various new organizations including the Men's Brotherhood and Women's Guild, a \$15,000 building program at New Oxford, and a \$40,000 building program at Abbottstown.

At the observance Sunday night the Abbottstown church completed the paying off of the bank mortgage in connection with the renovation program there, leaving only \$16,000 in debt, all held in the form of notes of parishioners.

### Gifts Presented

Chairman Bair, reading a long list of the accomplishments of Pastor Rohrbach also cited him for his community leadership and his leadership in the work of the Mercersburg Synod, of which he is vice president, a member of the Synodical Council and has served on numerous committees and boards.

Rev. and Mrs. Rohrbach were also presented with a basket of flowers and a reclining chair, gifts of both congregations. A reception followed the formal program.

Rev. Mr. Rohrbach was installed as pastor of the two churches on the last Sunday of June 1946. He had previously served four years as a U.S. Army chaplain including 2½ years of service in the European Theater of Operations.

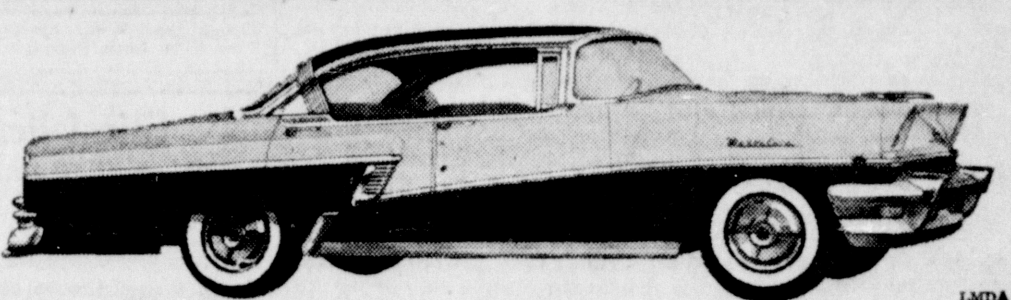

NEW YORK (AP)—The New York Central Railroad today announced a temporary cut of 750 persons from its work force starting July 1.

The reduction is spread over the railroad's entire system, the Central said, and is the result of reduced auto industry production in recent months and the coal industry's summer holiday which starts June 28 and ends July 10.

FIFTY YEARS AGO

**Wedding Bells—Brehm—Greene:** A quiet wedding occurred at the home of Davison Greene, west of Chambersburg, on Tuesday evening at 7:30 o'clock when his daughter, Mable, was united in marriage to John W. Brehm. The ceremony was performed by the Rev. George W. Nicely, pastor of the Lutheran church, Newville. Mr. Brehm is the junior partner in the firm of Seligman & Brehm, tailors of Gettysburg. She had been in the office of Samuel F. Huber, Esq., and is a young woman of many charms.

After a reception at the home of Mr. and Mrs. Brehm left on the 8:45 Cumberland Valley train for the west where they will make an extensive tour embracing Chicago and St. Louis. Upon their return they will reside in Gettysburg. — Chambersburg Public Opinion.

**Trout—Bigham:** The very pleasant home of Mrs. John Bigham, near Greenmount, was the scene of a pretty wedding last Wednesday evening when her daughter, Miss Mary, was united in the holy bonds of matrimony with Dr. C. N. Trout, of Red Lion.

The bride was gown in white; wore a veil fastened with orange blossoms and carried a shower bouquet of roses. The bride and groom stood beneath a bell of roses, while the officiating clergyman, Rev. Dalzell, of Marsh Creek Presbyterian Church, assisted by Rev. Barnes, an uncle of the bride, performed the ceremony.

The groom is a successful young dentist of Red Lion, and is a brother of Dr. N. C. Trout, of Fairfield.

**Rickrode—Butler:** Charles Rickrode, son of Mrs. James Rickrode, of Irishtown, and Miss Catharine Butler, daughter of Henry Butler, Justice of the Peace of Conowingo township, were married at a nuptial mass in Conowingo Chapel Tuesday morning by Rev. Eugene Haltermeyer.

The young couple were attended by Miss Miriam Butler, sister of the bride, as bridesmaid, and John Barnhart as groomsmen.

The groom is a cigarmaker by trade. They will reside in the chapel tenant house at Edgewood.

**Livers—Bittinger:** A very pretty wedding was solemnized last Wednesday morning when Joseph Edwin Livers, of Littlestown, and Genevieve Marie Bittinger, daughter of Mr. and Mrs. Jos. Bittinger, of Littlestown, were married at a nuptial mass in St. Aloysius' church at half after five o'clock, the pastor, Rev. G. Kohl, officiating.

**Snyder—Polhemus:** John H. Snyder, of Topeka, Kansas, and Mrs. Ollie J. Polhemus were married at the latter's residence on Stevens street Monday evening. The ceremony was performed by Rev. D. W. Woods Jr.

The groom is an engineer on the Topeka and Santa Fe road and they will reside in Topeka.

**Ordained To Priesthood:** Jerome M. Shultz, of Edgewood, was ordained to the Catholic priesthood at Mt. St. Mary's Seminary, Emmitsburg, Tuesday, June 19th, by Bishop Garvey, of Altoona. Rev. Fr. Shultz sang his first mass at Conowingo Chapel on Sunday morning at 7 o'clock.

**House Burned:** Margaret Musselman's house located at Fairfield Station, was destroyed by fire Monday afternoon. Most of the furniture was saved.

**Plenty Of Berries:** There will be plenty of employment for berry pickers in the rural districts this year, as a large crop is expected this season. Raspberries, blackberries and huckleberries are particularly abundant, and the crop in Adams County will be larger than usual.

**Local Miscellany:** William Herman has again been appointed Street and Road Supervisor instead of John Zhea, resigned. Charles E. Lady has completed the cement pavement in front of the Allenman store on Baltimore

## Today's Talk

**"EVERYBODY SAYS"**  
How familiar is that expression, "Everybody says," and then a continuous run of gossip and idle talk, no part of which could be true — in fact, most of the talk mere hearsay!

I recall that familiar expression when I was a boy that what was everybody's business was nobody's business. We ought to take time to learn one of the best suggestions in life, and that is to make it a habit to say nice things about everyone, when the opportunity occurs, and not spread evil where no harm belongs.

Even though everybody says this and that, it proves nothing. An upright character cannot be harmed by false reports. Pay no attention to what everybody says. The dog barks, but the caravan marches on! I recall a motto in the famous Roycroft Inn, that Elbert Hubbard created at East Aurora, New York. It was one of the beams before entering the dining room. It read: "They will talk anyway!"

"Everybody" covers a lot of territory. There are millions of people but only a very few ever come in contact with any one of us. How could "everybody" say anything about anyone whom they had never seen or perhaps heard of? Those whom everyone seems to take pleasure in praising are always those who take great joy in saying nice things about everyone whenever the opportunity is presented. Such a procedure is one of the secrets of success and a happy life. And its only cost is — effort!

Tomorrow Mr. Adams will talk on the subject: "The Protecting Eye".

THE UMPIRE

I'd say the umpire loves his wife

And maybe children small.

And wants to fit them well for life

By educating all.

Perhaps, if we should deeply search,

We'd find he also goes to church.

I hear some rabid, angry fan

Exclaim that he's a thief.

Yet maybe he's a gentleman

Who lives to his belief.

And, it may be when off the field

His better nature is revealed.

When he takes off that suit of blue

And throws his cap aside,

I'd say, perhaps, like me and you,

He thinks of home with pride.

And though he sometimes blunders makes,

Good care of those he loves he takes.

I'll bet, when resting in the fall,

As any friend would do,

He gives his neighbor's son a ball

And autographs it, too.

Stripped of his cap and ma pad.

I'd say the umpire's not so bad.

ADMIRAL KING  
WILL BE BURIED  
AT ANNAPOLIS

PORTSMOUTH, N.H. (AP) — Funeral services for Fleet Adm. Ernest J. King, who died yesterday at the age of 77, will be held Friday at Washington National Cathedral with burial at the Naval Academy at Annapolis.

The body will be taken by air to Washington today and will lie in state at the cathedral.

The World War II commander of the U.S. Navy died at Portsmouth Naval Hospital of acute heart failure induced by high blood pressure, from which he suffered for many years.

**The Notes Passing**  
President Eisenhower noted the passing of his old friend with this statement issued at Walter Reed Army Hospital, Washington, where he is recovering from an operation:

"The nation has lost a great American and an outstanding naval officer."

"As commander in chief of our naval forces and as chief of naval operations during World War II Adm. King carried his heavy responsibilities with courage, brilliance and continued devotion to duty."

"Mrs. Eisenhower joins me in extending our deepest sympathies to his family."

**Look Over In December '41**  
Other messages of condolence were received by King's family from many parts of the world.

With King at the time of his death was his son, Lt. Cmdr. Ernest J. King Jr.

King took over as commander in chief two weeks after the Japanese sneak attack on Pearl Harbor Dec. 7, 1941, and as chief of naval operations only three months later. He was the first man to hold both ranks at the same time.

CLOSE VOTE ON  
AIR FORCE FUND  
IS PREDICTED

By EDWIN B. HAKINSON

WASHINGTON (AP)—Rival camps in the heated Senate battle over whether to increase Air Force funds above the amount asked by President Eisenhower agreed to a showdown today with Sen. Bridges (R-NH) predicting it will be a close vote.

Bridges is spearheading a Republican drive to limit to half a billion dollars the added money that would be voted the Air Force the 12 months starting Sunday. Sen. Chavez (D-NM), floor manager for the 35-billion-dollar annual defense money bill, voiced confidence the Senate would approve an extra \$1,100,000,000 for the Air Force. The House voted a little less than 15½ billion dollars.

**See Six-Vote Margin**  
Chavez said most Democrats and some Republicans would team up to win by a margin of 6 to 10 votes.

The Senate agreed to limit debate on each amendment and on the bill as a whole, indicating final action late in the day.

The only support for the Republican President's budget voiced in yesterday's debate came from two Democrats, Senators Ellender of Louisiana and Holland of Florida.

Ellender said he and other senators "lacked the facts that the Joint Chiefs of Staff and the President had" regarding relative U.S.-Soviet air power.

**Fear Russ Superiority**  
He said the Defense Department already has more than 12½ billion dollars of unexpended funds voted by Congress previously and the

ST. PETERSBURG, Fla. (AP) — An aquatic rodent with webbed hind feet has been put to work here clearing lakes of vegetation.

The rodent, known in its native South America as Coypu, weighs 20 to 25 pounds and resembles the muskrat although it is much larger.

C. G. Hewitt, who imported a male and two females from Grape-land, Tex., by special permission of the Florida Game and Fresh Water Fish commission, said 17 states have imported the rodents to rid lakes and ponds of vegetation.

Their food includes water moss, water hyacinth, sword grass, bull rushes and duckweed. Also, Hewitt reported, their meat is palatable.

NOMINATION ON  
EARLY BALLOT  
SEEN FOR ADLAI

By JACK BELL

ATLANTIC CITY, N.J. (AP) — Adlai Stevenson appears likely to collect more than 400 overpopulation presidential nominating votes from the 27 Democratic-controlled states represented at the 48th annual Governors' Conference.

On the basis of an Associated Press survey of opinion of the governors or their representatives from those states which have Democratic chief executives, Stevenson has only to break even in 21 GOP-dominated states to win his party's nomination on an early ballot at the Aug. 13 Chicago convention.

The strong reservoir of Stevenson support was disclosed despite what appeared to be an upsurge in the strength of Gov. Averell Harriman of New York in the wake of the practical demise of Sen. Estes Kefauver of Tennessee as a challenging candidate.

**Harriman A Contender**  
Harriman harvested the prospect of gaining the backing of Kentucky's 30 votes—if Gov. A. B. (Happy) Chandler can win control of them and make some sort of agreement with the New York governor. Harriman said today no such agreement had been reached.

In addition, if he got Kentucky, Harriman would have most of New York's 98 votes. Oklahoma's 28 and what Gov. Raymond Gary of Oklahoma predicted would be 85

Air Force has 5½ of these billions. Holland said nearly three billion dollars of these unspent Air Force funds are available for buying new aircraft, including the intercontinental B52 jet bombers that have been the nub of the dispute.

If Congress voted just the six billions of new funds Eisenhower asked for buying aircraft, Holland said, there would be 18 billions available "or more money than could possibly be spent during the next year."

Senators Robertson (D-Va.), Jackson (D-Wash.) and Symington (D-Mo.), urging approval of the Air Force increase, quoted at length from testimony by U.S. Air Force generals that Soviet Russia could have a superior air force by 1959-60 unless the U.S. program is quickly stepped up.

SEEK RECORDS  
OF CAMPAIGN  
CONTRIBUTIONS

By ERNEST B. VACCARO

WASHINGTON (AP)—Sen. Bridges (R-NH) said today the House should "determine if important statements of campaign contributions have been destroyed."

Bridges, chairman of the Senate GOP Policy Committee, made the suggestion after House Clerk Ralph R. Roberts said he assumed the documents in question had been "sold as scrap paper."

The documents are a statement of campaign contributions filed by the treasurer of the Republican National Committee for 1952 and others filed by the Democratic national treasurer for the years 1949-1952.

**Needed In Tax Probes**  
The Justice Department said the reports are needed in connection with "investigations." One, now under way by a federal grand jury in St. Louis, concerns alleged tax irregularities.

The department said it not only had been unable to obtain the documents from Roberts or from Wayne C. Grover, the national archivist, but couldn't even learn if they still exist. It said responses from both men had "been quite inconclusive."

Roberts told reporters he gave the Justice Department access to all records that were available. But those for 1951 and 1952, he said, were not available "because they are not in existence."

**Should Be Preserved**  
He said he assumed they were sold as scrap paper as are other papers no longer kept in the "live" files of the House.

The Corrupt Practices Act, he said, requires the keeping of records of campaign expenditures for only two years.

"If they really want them it seems they could get them from the two national committees themselves," he said.

The Justice Department took the view that after two years the statements are supposed to be transferred to the National Archives for preservation.

## Crandall's Squeeze Bunt Gives Braves 11th Straight Win; Beat Phillies 8-5 As Reds, Brooks Win

**By ED WILKS**  
The Associated Press

Picking the big guy in Milwaukee's slightly fantastic comeback in the National League pennant chase is like stepping on ants. Tag one and there are two more to take his place. The Braves simply have a new hero every day.

It was catcher Del Crandall's turn last night. His squeeze bunt got the winning run home as the Braves scored three in the ninth inning to beat the Philadelphia Phillies 8-5.

That made it 11 in a row for Milwaukee under Manager Fred Haney. It also retained the Braves' two-game lead as second-place Cincinnati dropped Pittsburgh into fifth place 2-1 and third-place Brooklyn scored two unearned runs to overhaul Chicago's Cubs 3-2.

**Cubs Bury Athletics**

In the American League, the New York Yankees buried their four-game losing streak under 14 hits, including four home runs, and beat Kansas City 9-3. Washington handed Detroit its ninth straight defeat 5-3 in the only other AL game scheduled.

Since Haney replaced Charlie Grimm 10 days ago, no less than eight Braves have accounted for the winning runs in the 11-game sprint that has led from fifth place to first.

Willie Jones set up Crandall's winning hit last night with a three-run homer in the eighth that tied it at 5-all for the Phils. But Johnny Logan opened the ninth with a double, went to third on Andy Park's bunt and then came flying home on Crandall's laydown. Hank Aaron's sacrifice fly and a single by Bobby Thomson got the two extra runs home.

**Redlegs Hold Second**

Thomson had 4-for-4, including his 10th homer, and drove in three runs, as Bob Buhl won his eighth with Warren Spahn pitching the ninth. Stu Miller (3-4) lost it.

The Redlegs stayed in second with their third straight victory, scoring twice in the seventh as Ted Kluszewski hammered his 14th home run and Ray Jablonski hit a sacrifice fly after singles by Frank Robinson and Ed Bailey. Art Fowler won his fifth with a five-hitter. Ron Kline was the loser.

**Berra Slump Ends**

Rookie Norm Siebern homered twice for the Yankees, who also had homers from Hank Bauer and Joe Collins as Johnny Kucks won his 10th with a nine-hitter. Yogi Berra ended an 0-for-23 slump with a ninth-inning double while Mickey Mantle went 4 for 5.

Manager Chuck Dressen sent left-handed-hitting Clint Courtney in as a pinchhitter against southpaw Billy Hoelt in the eighth and the stubby Nat catcher smacked his second 1956 home run with a man on for a 4-3 lead.

## MOORE TO FIGHT FOR HEAVY TITLE

TORONTO (AP) — Charley Johnston, manager of light heavyweight champion Archie Moore, said today Moore's fight against James J. Parker next month "definitely will be for the vacant world heavyweight title."

Johnston said Moore would sign today for the July 25 15-round bout. And he said it will have to be recognized as a world title scrap because "these are the only two logical contenders."

Who else in the heavyweight division has a better right to fight for the title than Moore or Parker? Both are champions, Parker, as well as being British Empire heavyweight titleholder, is unofficial champion of Europe because of his knockout of the European champ, Heinz Neuhaus.

Despite Johnston's claims, it is unlikely any state would recognize the winner of the Moore-Parker fight as champ. In this country, the Canadian Boxing Federation has no authority to sanction a world title bout.

**NEW MISSILES CAN BE TESTED OVER ATLANTIC**

WASHINGTON (AP) — The Air Force has two strategic guided missiles which can be tried out more fully now that the U.S. test range has been extended to stretch 5,000 miles out into the Atlantic.

Such an extension was formally agreed to late yesterday by the United States and Great Britain. British approval was required because the range starting in Florida skirts several British Islands and because the new terminal point is British-controlled Ascension Island.

Ascension lies almost midway between South America and Africa.

The two American missiles are the Snark and Navaho, air-breathing weapons which have been tested at less than maximum range in flights from Patrick Air Force Base on the east coast of Florida.

Both the Snark and Navaho have ranges up to 5,000 miles.

Until the new agreement with Britain, the range extended only about 1,200 miles. Snark has been flown at least once for about 2,000 miles, having been sent southeastward along the range, then turned around and guided back to Florida.

AMES, Iowa (AP) — Plans for a comprehensive study of the nation's needs for research in engineering were announced last night by the American Society for Engineering Education, holding its 64th annual meeting of the Iowa State College campus.

## PLAYERS WHO SWITCHED GARB DO VERY WELL

NEW YORK (AP) — A switch in baseball uniforms often helps major league players and it's worked wonders this season for Dave Philley and Jim Wilson of the Chicago White Sox. Brooks Lawrence of Cincinnati and Alvin Dark of the St. Louis Cardinals among others.

Secured from Baltimore last month, Philley and Wilson are two good reasons the White Sox have climbed rapidly in the American League. Philley, while performing both in the outfield and at first base, has hit .326 after batting only .205 for the Orioles. And Wilson, veteran right-hander, has posted a 6-1 record. He was 4-2 at Baltimore.

**Best Record In Majors**

Lawrence, possessor of the major's best won-lost record of 9-0, has been a pleasant surprise for Redleg Manager Birdie Tebbetts. The husky right-hander, who had a 3-6 mark for St. Louis in 1955, was obtained in a winter trade in which Jackie Collum went to the Cards.

Dark has been a ball of fire since his acquisition from the New York Giants earlier this month. He has cracked out 25 hits in 51 trips to the plate for a .490 mark. He left the Giants with .262 and has climbed to .285.

Walt Moryn of the Chicago Cubs, Bill Virdon of the Pittsburgh Pirates, Bob Nieman of Baltimore, Mickey Vernon of the Boston Red Sox and St. Louis' Murry Dickson also have done well with new clubs.

## BELL DISPLACES SNIDER IN POLL

NEW YORK (AP) — Gus Bell, one of Cincinnati's homer-bustin' Redlegs, has taken over the National League's center-field spot from Brooklyn's Duke Snider in the next-to-last tally of the fans' All-Star Game balloting.

Bell now tops Snider in the voting by 56,602 to 53,668.

Final results in the voting for the July 10 game at Washington probably will be released Friday by the office of Commissioner Ford Frick, which is tabulating the vote this season.

There were no other changes among the leaders.

Mickey Mantle, a cinch in center field for the AL, probably will finish with more than 100,000 votes. The Yankee slugger leads the individual vote with 94,278.

Right behind is Pittsburgh first baseman Dale Long, who tops the National League balloting with 90,059.

**Sports In Brief**

WIMBLEDON, England — Vix Seixas, led a large contingent of Americans into the second round of Wimbledon tennis championships as former champion Jaroslav Drobný, Egypt, was upset by 4-6, 6-1, 6-4.

VIRGINIA WATER, England — Stan Leonard of Canada shot a brilliant 67 to take one stroke lead over Ben Hogan with a half-way mark of 136 in the Canada Cup-international golf championship. The Canadian team held a three-stroke edge over the United States.

WILMINGTON, Del. — Remand (\$24) drove to a head verdict in the flaming top purse at Delaware Park.

OCEANPORT, N.J. — Sammy Boulmetis booted home three winners, including Cosmic Hero (\$12-40) and Cavori (\$3-20) in the co-feature at Monmouth Park.

By THE ASSOCIATED PRESS

Dick Ricketts was driven from the mound last night as the Allentown Redbirds suffered their third straight Eastern League defeat, 8-2 at the hands of the Reading Indians.

The loss was not as damaging as it might have been for the Redbirds, who were knocked out of first place Sunday by the Schenectady Blue Jays. The Jays also lost as reliever Don Robinson of the host Albany Senators calmly eliminated a bases-loaded threat in the seventh to save a 3-2 victory for starter Joe Albanese.

The Johnstown Johnnies moved into a virtual tie for seventh place with the Syracuse Chiefs as they took both ends of a doubleheader from the visiting Williamsport Grays 12-9 and 4-3. The Chiefs, who were sent down to their ninth straight defeat, 10-3 by the Binghamton Triplets, lead the Johnnies by three percentage points.

dent of the Pennsylvania State University, will direct the project.

"This project," said Dr. Work, "should help considerably to delineate the needs of the country in engineering research. When these needs are clearly defined, methods should readily be found to locate and provide support for these activities."

A close, well-played ball game on the part of both teams resulted in a 3-3 tie after nine complete innings between the Lions and the G. L. Bream Garage on the Little League diamond Monday evening, the contest being called due to darkness.

Perfect relief pitching on the part of Bobby Bigham of the Lions and the solid hitting of Jimmy McClellan and Tony Claybaugh of the Garagemen made the game a tougher affair with each play. The Lions were able to come up with a couple of runs in the top of the tenth, but after Umpire Jack Ridinger met with Managers Fred Baker and Bob Weikert, it was decided the hat the extra inning contest.

President Dick Altomose announced today the game will be played in its entirety at the close of the season, providing it is needed to determine a position.

## LIGHTBURN MAY VISIT ORIENT AFTER VICTORY

NEW YORK (AP) — Lightweight contender Ludwig Lightburn of British Honduras planned a boxing tour of the Orient today following his victory over Jake Josato last night.

The 22-year-old Lightburn, seventh-ranked among the 135-pound contenders, had to go all out to gain a split verdict in 10 rounds over the unknown but potent Philadelphiaan at St. Nicholas Arena. The bruising bout was telecast over a network.

A cut over Lightburn's right eye, opened in the eighth round, required six stitches and cost him a July date at St. Nick's.

### Heading For Orient

"That means we'll be heading for the Orient next if we get confirmation for a five-fight deal there," Allie Clark, Lightburn's manager said.

"A very tough boy," said Ludwig. "He made me throw more punches than I ever did just to keep him off."

Referee Mark Conn (8-2) and Judge Artie Schwartz (7-2-1) voted for Lightburn. Judge Leo Birnbaum had it exactly even, giving each five rounds and five points. The AP card had Lightburn in front 6-4.

Both were well battered at the finish. Lightburn an 8-5 choice, weighed 139½ to Josato's 140½.

## SALK VACCINE SUPPLY TOPS DEMAND IN PA.

HARRISBURG (AP) — The State Health Department indicated today that the supply of Salk antipolio vaccine in Pennsylvania has exceeded demand for the first time in history.

"The shipment of 27,000 doses of vaccine back to Washington for distribution to other states provides a favorable indication as far as supply is concerned," said Dr. J. Thomas Millington, director of preventive services in the department.

"We have sufficient vaccine in Pennsylvania right now to meet our needs," he added.

Millington said the shipment was the first to be returned to the federal government since the polio inoculation program began last year.

He explained that the vaccine was intended for purchase by private physicians but the "private demand is slackening somewhat."

The department earlier announced that the availability of more vaccine was the major factor in boosting the eligibility group to children 19 years old and younger and pregnant women.

Previously only children 14 and under and pregnant women were eligible.

**Will Meet Other Calls**

Millington said the vaccine sent to Washington had been in Pennsylvania for five weeks without anyone attempting to purchase it. It will be distributed to states where the demand is great.

About one million children have not yet received their first inoculation of the serum. Over two million, however, have already received at least one shot.

Millington explained that the 27,000 doses might have become outdated if the state purchased the supply, he vaccine must be used not later than six months after manufacture.

Since the program's inception, Pennsylvania has received 2,800,000 doses of vaccine or 80 per cent of the total for commercial distribution. The remaining 20 per cent was held by the state for use in clinics.

## MAUREEN RILEY WINS QUALIFIER

READING, Pa. (AP) — Maureen Riley of New Castle, Pa., runner-up in last year's Pennsylvania Women's State Amateur Golf Championship, won medalist honors with a 32-42 yards per par 74 over the 5,622 yard Reading Country Club course in yesterday's qualifying round.

The Lawrence County competitor had two strokes under Mrs. D. Haskell, Pittsburgh, who shot a 35-41 for 76.

The 1950 state champion, Betty Fehl of Reading tied with Mrs. Annette Gessler, Whitmarsh, at 77. Miss Fehl shot a 37-40 and Mrs. Gessler 35-42. The latter held the championship from 1951 to 1953.

Of the 94 qualifiers, 32 players comprise the championship flight. Match play begins today with 18 holes scheduled through Friday 5 and a 36-hole final on Saturday.

Rounding out the top 10 qualifiers were Mrs. Horton Semple, 80, retired magazine editor and writer, onetime editor of the Metropolitan Magazine and Hearst International Magazine and former sports editor for film producer Cecil B. DeMille, died yesterday.

## U. S. NORTHWEST WONDERS ABOUT WATER POWER

By SAM DAWSON  
SEATTLE (AP) — The Pacific Northwest—long known for abundance of water power—now is eyeing the atom even as it calls for more "bathtubs."

The region expects to grow industrially so much and so steadily that the time will come when nuclear energy will help meet the demand for electric power.

That time won't be tomorrow or probably for many years. But the power companies are studying nuclear plants today—and also keeping an eye on the steady approach of the natural gas pipeline from New Mexico.

They struggle meantime with their perennial problem of the need for more giant "bathtubs" in which to store the spring run-offs.

**The Immediate Worry**  
The immediate worry of the power companies now: Will the water supply this fall be enough to meet the expected peak power load in December, or must they turn to more expensive steam plants? If the water supply falls too low, aluminum and chemical plants will lose some of their cheap electrical energy.

Part of the trouble will be from the delay, due to the Westinghouse strike, in the scheduled installation of five generators at the new Chief Joseph Dam on the Columbia River.

But L. E. Karrer, vice president of Puget Sound Power & Light, says the fall problem is always with the utilities—it depends in last analysis on the weather. Right now the Columbia River is dropping from flood stage in spots. By late fall it will be low.

**Still Untapped Sources**  
Jack D. Stevens, engineer for the Puget Sound Utilities Council, says that the industrially growing area within a 100-mile radius of Seattle alone should add about 14 million kilowatts of new generating capacity in the next seven years on the basis of foreseeable demand.

One project on which the entire Columbia basin is counting, is the proposed Mica Creek storage res-

ervoir on the Columbia in Canada. Stevens says "this would add about 2,700,000 kilowatts of prime power to new loads in Canada and the United States." Canadian and U. S. interests are now deadlocked on the proposal. The northwest hopes the U. S. State Department will step in.

Karrer and Stevens stress that there are still untapped water sources in the basin sufficient to provide the needs of the next decade or so.

## TWINING SHOWN NEW RED BOMBER AT SOVIET BASE

By VERN HAUGLAND

MOSCOW (AP) — Gen. Nathan Twining, U. S. Air Force chief of staff, has been given a look at a new Soviet bomber the Russians say can fly faster than sound.

The U. S. Air Force does not yet have such a supersonic bomber. The speed of sound varies from 760 miles an hour at sea level to about 683 miles an hour at alti-

tudes above 35,000 feet.

The top U. S. airman, a group of his aides and British, French and other foreign military men were shown the new plane during a conducted tour of the closely guarded Kubinka air base, about 40 miles from Moscow.

### Reporters Stopped

Reporters who tried to trail the foreign visitors were halted 20 miles outside Moscow.

Twining said later the new craft was a twin-engine, light attack bomber.

The foreign military men, who were invited here to see Russia's latest aviation achievements, were told the new bomber had never been shown before.

The visiting officers toured the

base in jeeps, making only one stop while viewing more than 100 planes.

The stop came when Twining was invited by Air Marshal Pavel Zhigarev, Soviet air force chief, and Marshal Sergei Rudenko, Soviet air force chief of staff, to make a close inspection of the new TU104 jet transport. The U. S. officer was the only member of the party invited to enter the plane.

Twining said Soviet pilots demonstrated their skills for the visitors, taking off in MIG17s in formations of five, then circling and showing their style of peeling off. "Their technique is good," said Twining, "just like ours."

"We asked a lot of questions

and they were pretty good about answering them," he said. "They let us take our time, didn't hurry us at all."

British officials making the tour said it was a "valuable closeup," but described it as a "child's guide to the Soviet air force."

When we asked the range of planes we were shown, we were told it was very great," the Britons reported. "When we asked about the speed of a certain plane, we were told very great."

PHOENIX, Ariz. (AP) — State legislators were surprised when the title of a bill was read off. It called for a "pole" tax.

The proposed levy did not concern voting — but utility poles.

## 75-Year-Old Takes Out Life Insurance

PINE BLUFF, Ark. (AP) — Charles A. Gordon is 75, about seven years older than the life expectancy of the American male as figured by insurance actuaries, but he took out a \$25,000 policy on his life.

R. C. Coulter, agent who wrote the policy, says: "Gordon met all the requirements — no record of surgery or serious illness, and he was actively engaged in his line of business at the time the policy was issued."

The rate, Coulter said, was "standard."

## Twining Says U.S. Won't Cut Arms Until Worldwide Controls

By VERN HAUGLAND  
MOSCOW (AP)—Gen. Nathan Twining, U.S. Air Force chief of staff invited to Moscow to see the latest in Soviet aviation developments, has told his hosts the United States will not disarm until it is certain of worldwide controls.

Twining, his aides and British and French air force chiefs were among foreign guests on Sunday at the Soviet Aviation Day show in which the Russians unveiled three new types of fighter planes and a new jet-propeller transport.

It was the first time U.S. and British air chiefs witnessed the annual display.

**New Models Shown**  
Communist party chief Nikita Khrushchev told the foreign guests and newsmen the show omitted new heavy jet bombers because "we wanted to emphasize defense, not offense."

The new models shown included (1) three delta-wing day interceptors assumed capable of supersonic speed, (2) two "advanced type" day fighters of a model called "Farmer" by U.S. airmen and first shown last year, (3) two improved all-weather fighters of the type labeled "Flashlight" by Western observers, also shown in the original version last year, and (4) a single assault-type, twin-en-

gine turboprop transport which can operate from short, unimproved runways.

Western experts said none of the new aircraft was unexpected. They added that the show included nothing startlingly new.

"Very Interesting"  
But Twining called the display "very interesting and successful." He said he hoped to examine the aircraft in more detail during his inspection of Soviet air installations and factories in the coming week.

At a garden party at the Soviet Army Club after the show, Soviet leaders proposed repeated toasts to disarmament and world friendship. When his turn to speak came, Twining said forthrightly but politely:

"We know what war means and my country has proved through the years we are a peaceful people. We always got into wars very late."

**Gets Some Applause**  
"After the last war we disarmed completely. That, gentlemen, is disarmament. We had to build up our forces again at Korea—and we are not going to reduce them again until we are sure of worldwide arms controls."

He was applauded by diplomats and air force delegations of Britain, France and the United States.

During the entertainment, Khrushchev said to Twining, "You probably are very interested in our rockets and ballistics missiles. We will show you all you want to see. You would like to see them, wouldn't you?"

Twining nodded.  
"Want To See Yours?"  
Khrushchev slapped his knee and roared. "Well, we want to see yours. Show us your planes and we'll show you our ballistics weapons."

The U.S. general replied, "You can read all about ours in our journals."

"That's old stuff," the Communist boss retorted. "We can show you old stuff too. The question is who has the better missiles, you or we. . . . But we won't show them to you today. Today is too early. We'll do it at some future

## STORMS SWEEP WESTERN PENNA.

PITTSBURGH (AP)—Storm-weary Western Pennsylvanians mopped up Monday after three successive days of violent thunderstorms, and took cheer from a forecast of sunny weather.

The siege of storms took two lives, and indirectly caused a third death.

Flash floods, washed out bridges, impassable roads, power failures, toppled trees, lightning-struck homes and barns—all were experienced in one place or another from Friday night through Sunday.

The Weather Bureau predicted a turn for the better, however, calling for sunny, breezy and less humid weather today.

Gusty winds and heavy rain accompanied a series of thunderstorms that swept western Pennsylvania on Sunday and aggravated conditions in some areas.

date. Meanwhile, you keep yours and we'll keep ours. We'll show you what competition is."

Lavish toasts were drunk at the party to President Eisenhower, of whom Soviet Defense Minister Marshal Georgi Zhukov said: "He does not forget his friends." Twining disclosed he carried a personal message from the President to Zhukov.

Khrushchev said the Soviets hold Eisenhower in high esteem. "We believe he has the best intentions," he continued. "But we do not hold in high esteem some of his collaborators."

Premier Bulganin proposed toasts to Eisenhower as "a great man" and to Prime Minister Eden of Britain. He thanked the United States for its aid in World War II—a sentiment rarely heard in Moscow—then insisted on shaking the hands of all the U.S. officers present.

## Woman Gets 20 Yrs. For Embezzlement

NORFOLK, Va. (AP)—Minnie Mangum, ex-officer of an embezzlement-wrecked financial institution, was sentenced Monday to serve 20 years in prison.

The 59-year-old spinster, plump and poked-faced, stood in a crowded courtroom and heard Corporation Court Judge H. Lawrence Bullock impose sentence of

## FIRE WARNING GROUNDS BIG PLANE SUNDAY

HARRISBURG, Pa. (AP)—An American Airlines DC6 with 42 persons aboard made an emergency landing at Harrisburg State Airport Sunday night after the plane's fire warning system sounded.

The four-engine craft, on a non-stop Chicago to New York flight, landed at 11:24 p. m. (EDT). Emergency equipment at the airport was called out but no fire developed and no one was injured.

The huge craft was carrying 37 passengers and a crew of five, including two stewardesses.

The passengers several hours later boarded another plane and resumed their flight to New York. Capt. Leonard M. Klasmeyer, Valley Stream, N. Y., the pilot, said he "got a fire warning in the No. 1 engine on the port side (left) and decided to land." He described the landing as "very routine and merely a precautionary measure."

The light and bell warning sounded at 11:04 p. m. when the plane was at 19,000 feet about eight miles west of Phillipsburg, Pa.

Klasmeyer said there was no panic among the passengers as he and First Officer B. Scott, Jackson Heights, N. Y., a native of Columbia, guided the plane the 81 miles to Harrisburg.

The craft left Chicago at 9 p. m. (EDT) and was scheduled to arrive at Idlewild Airport in New York at midnight.

The control tower at Harrisburg said mechanics were trying to determine why the fire warning system sounded.

10 years for her embezzlement of \$1,082,968.25 and 10 years for giving false information to the State Corporation Commission.

Bullock specified the two sentences are to run consecutively.

He imposed sentences of two years each, to run concurrently with the 20 years, on eight indictments charging forgery, two others charging false information, and one alleging embezzlement of \$17,000.

## President-elect Of Egypt Makes Promise

CAIRO (AP)—Premier Gamal Abdel Nasser, President-elect, promised Monday "we will be defenders of the constitution and defenders of right." He said Egypt had crushed colonialists and would support "whoever believes in our aims and principles."

He spoke to a crowd congratulating him on being chosen first President of the Egyptian republic. It included Soviet Ambassador E. D. Kiselev. Nasser was the only candidate in Saturday's election. He got the approval of more than 90 per cent of all Egyptian voters.

The Interior Ministry announced that 94 per cent of the 5,720,000 registered voters took part in Egypt's first secret-ballot election, that 99.7 per cent of those voted for Nasser and that 97.7 per cent ratified the new constitution designating Egypt a republic.

The outgoing Revolution Command Council announced that it has given the minister of the interior power to put "under administrative detention" any persons against whom it had made decisions in the four years since it took over from King Farouk.

## U. S. Reds Claim Right To Criticize

NEW YORK (AP)—The U.S. Communist party says it has the "right and duty" to engage in "friendly criticism" of Red comrades in the Soviet Union and other countries.

The party on Sunday declared a degree of independence from Moscow's domination. The American Communists also said they couldn't go along with Nikita S. Khrushchev's charges that Stalin

was 100 per cent to blame for the excesses of his regime. Communist parties in Italy, France and Britain have also taken more independent public positions toward Moscow in recent weeks.

The National Committee of the Communist party of the U.S.A. issued a statement yesterday after meeting at an undisclosed place in New York City.

## Torso Slayer Is Denied New Trial

PHILADELPHIA (AP)—The State Supreme Court today denied a new trial for Francis X. Bailem, 29-year-old convicted Delaware County torso slayer.

The court's opinion was written by Justice John C. Bell Jr. Bailem was sentenced last Dec. 30 to die in the electric chair for the slaying of John Doprak, 33-year-old unemployed dishwasher of Chester, Pa. Sentence was pronounced by Delaware County Judge William R. Toal following Bailem's conviction on a first degree murder charge.

## Three Arrested In Big Numbers Ring

HARRISBURG (AP)—Three men faced lottery charges today after their arrest in what police called a 1 1/4 million dollar numbers combine in four southern Pennsylvania counties.

Dist. Atty. Huette F. Dowling said Saturday's raid at a Harrisburg residence was the second phase of a crackdown on "illegal gambling" in the Harrisburg area.

Those arrested were identified as L. J. Walker, Harrisburg, Edmund C. Beula, Steelton, and Gil-mund Oberton, Carlisle. Walker

and Beula were arrested during the raid while Oberton was arrested at the Harrisburg east interchange of the Pennsylvania Turnpike.

All three were charged before Alderman Joseph Demma and released in \$1,000 bail each pending a hearing Thursday.

## Copper Mining At Fairfield After Nearly 100 Years; Work Begins On Mine Hill, Mt. Hope

Power shovels have begun ripping off part of Mine Hill, near Mt. Hope, with the hope that the copper that lured the mining operations of almost a century ago, which gave the hill its name, might be present in sufficient quantities, to assure profitable operations.

Oliver Mickley, who lives near the foot of Mine Hill, can take an almost proprietary interest in the work being done by S. R. Snyder, Carlisle.

His son, Robert Mickley, owns the hill, after purchasing it from the late Dr. I. M. Snively, of Waynesboro, about eight years ago. "Ollie" helps his son cut timber for pulpwood off the hill.

But more important, 84-year-old Mr. Mickley, who smokes cigars and who climbs over the mountain with ease, can remember back to the original mining on the hill, some of which took place when he was a boy.

Two Were Injured  
The current mining operations are within 100 feet of an 80-foot-deep mine on top of the mountain. Mickley recalls the night more than three quarters of a century ago when Pius Bigham and Edward Singley were working in the original mine. They were among the last to work the operation. Trapped when a blast exploded prematurely, Bigham lost an arm and Singley

M. W. Shindledecker, Chambersburg St., a native of the Mt. Hope area, points to the now-closed opening to an 80 foot deep mine in Mine Hill, near Mt. Hope, where his relatives dug for copper about three-quarters of a century ago. The mine is within a few feet where strip mining for copper was begun two weeks ago.

Here miners nearly a century ago found a 23-pound hunk of copper in early excavations on Mine Hill, near Mt. Hope. The piece of metal was placed in the state museum at Harrisburg. Strip mining operations begun in the area about two weeks ago are within fifteen feet of this spot. M. W. Shindledecker is shown pointing to the spot where the ore was found.

lost an eye. Then with considerable difficulty they made their way down the mountain to the nearest farm house.

Possibly the last persons to work the old mine were Madison Shindledecker and his son, Garry, Mickley recalls.

The 80-foot shaft on top of Mine Hill was located near a shallow hole dug during the mining operations. From the smaller shaft a 23-pound lump of copper was removed.

Mining Is Abandoned  
The hunk of copper, Mickley re-

calls, was on display for years at the state museum in Harrisburg.

For Mr. Mickley the work on Mine Hill is fascinating — something like a novel.

When he was a boy mining operations were almost at an end. The quantity of copper available was not great and hand labor was expensive. It was difficult to extract the copper and costs were prohibitive, so the mining ventures were abandoned.

Then followed the years of manhood, years during which mining

## American And 25 Killed In Crash

LAGOS, Nigeria (AP)—At least 26 persons, including an American oil man, were killed Sunday night in the crash of a four-engine British airliner in Northern Nigeria.

The American was G. K. Eysa-man, 32, of Mohawk, N.Y., area manager of Mobil Oil Nigeria, Ltd., at Ibadan, Nigeria. He had been with the company eight years and was en route to New York for a leave and a year's assignment in the United States. His young daughter, Ann, and his wife, reported to be expecting a second child, are in the United States.

## Property Transfers

The following property transfers have been recorded in the office of the register and recorder:

Edgar J. and Marie G. Leech, Gettysburg, sold to Guy W. and Dorothy M. Foulk, Gettysburg, a property on the west side of the Gettysburg-Carlisle highway for \$9,500. J. Edwin and Henrietta I. Gillilan, Cumberland Twp., sold to Edward A. and Ethel B. McDonnell, Cumberland Twp., a property in Cumberland Twp. for \$325. John M. and Anna M. Mort, Liberty Twp., sold to Francis J. and Margaret Emma Kreitz, Liberty Twp., a property on the west side of the highway leading from Fairfield to Emmitsburg in Liberty Twp. for \$450.

was forgotten and the hill was used as a place to trace bees to their hives in trees. Mickley and others did it for sport, as well as profit. For fun there was the chance of capturing and killing rattlesnakes and copperheads on the hill on a Sunday afternoon. Then in the last few years, with pulp paper demands hiking the price of pulpwood to profitable levels, the hill and other nearby areas became a center of logging operations.

Copper Price Increases  
Now with modern methods and the price of copper on the upgrade, the hill has again become Mine Hill in actual fact as well as name. Mickley marvels at the difference in the mining however. When he was a youth, men sweated underground in the light of flickering torches to shovel out the ore. Today bulldozers and power shovels are pushing away the mountain side at the spots where core drilling has shown the possibility of profitable copper deposits. When the trees and earth are ripped away the stone will remain — easily available for removal of the ore.

Tune In WGET, 1450 On Your Dial

This is the way mining proceeds today. A Carlisle firm is ripping away earth at the top of Mine Hill, near Mt. Hope, as a new mining venture is started to secure copper ore from the hill where deep mines were dug nearly a century ago to recover copper ore.

ABBOTTSTOWN — A capacity crowd filled the social rooms of the Reformed Church when members and friends of the two congregations that make up the New Oxford Reformed Charge met in Abbottstown for a surprise anniversary party in celebration of 10 years of service by the pastor, the Rev. ## Fails To Appear In Mail Fraud Action

ROCHESTER, N. Y. (AP)—A Pennsylvania woman who failed to appear in Federal Court here on mail fraud charges may go before a judge in her own state.

The defendant is Mrs. Magdelene Z. Purcell, of Mt. Carmel, Pa., who is accused of using fraudulent mail orders to make extensive purchases from department stores in many towns. She formerly lived here, but after her arrest in Mount Carmel she was freed on \$500 bail in Williamsport, which is near Mount Carmel.

Court officials indicated yesterday that arrangements probably would be made for her to appear before a judge in Pennsylvania.

A witness said a detachment of about 20 policemen, drawn up across the avenue outside a movie theater, ordered the marchers to halt.

"The police fired into the air," the witness reported. "The students kept coming, singing the national anthem."

"Police then started firing into the marchers, while police reinforcements rushed up. Some police were firing pistols, others submachineguns."

**Claim Foreign Aid**  
"As soon as the firing started, the students ran to doorways and behind parked cars."

Two squads of police walked to a group of students on 11th Street between 6th Avenue and an alley, firing on them from both sides. Some students fell, some held up their hands and were captured. I saw six boys fall."

## BIGGER PENSION BILL UNLIKELY TO PASS; CUTS CUT COST TO U.S.

By LEWIS GULICK  
WASHINGTON (AP)—Leaders in the pensions-for-veterans drive brought out a new, one-half cost proposal today as the House headed into an anything-can-happen battle over a bill that could annually cost billions of dollars.

Rep. Edmondson (D-Okla.) said the American Legion and Veterans of Foreign Wars will back a \$90-a-month pension instead of the \$105 version originally approved by the House Veterans Committee.

This, plus other agreed-on cuts in the committee bill, would chop first-year costs to little more than two thirds of a billion dollars.

Without this the administration estimates the first year's tab at \$1.4 billion and a total of 148 billions by the year 2000.

**Push Rival Plan**  
The last-minute switch reflected leaders' opinions that even in an election year the bigger bill hadn't a chance of becoming law.

Chairman Olin E. Teague (D-Tex.), with the support of Speaker Rayburn (D-Tex.), pushed a rival plan aimed mainly at helping seriously disabled veterans. Providing less pension liberalization, it would cost about 200 million dollars the first year.

Overnight, there had been no word from the White House on the various plans, although it previously expressed strong disapproval of the major parts of the committee bill.

That bill would provide non-military service-connected pensions of \$105 a month at age 65 for World War I, II and Korean War veterans whose annual incomes are less than \$1,400 if single or \$2,700 if with dependents. The rate would be 20 per cent higher for those with at least 30 days overseas service.

**Would Raise Compensation**  
It would also raise compensation for service-connected injury generally by 10 to 15 per cent and increase payments to veterans' widows.

The new Legion-VFW plan would make a number of decreases in the committee bill, including dropping the pension to \$90 a month and the overseas bonus to 10 per cent.

KEARNEY, Neb. (AP) — There appears to be a brisk demand for used railroad locomotives. The Kearney city council learned. The council asked the Union Pacific Railroad for a retired engine to be placed in one of the city parks. The railroad replied that because of previous demands from other cities, the supply of old engines is exhausted.

## MAKE ANIMATED FILM OF BATTLE

The Battle of Gettysburg is being recreated on a table top with miniature toy soldiers, according to a two-page illustrated story in "This Week" magazine carried by many city papers. A full-page battle scene was depicted on the magazine cover and four other phases of the battle appeared in pictures with the text of the story, which reads as follows: "Blue and gray-clad troops clash in the streets of a sleepy, summery little town. Long marching columns converge down gravel turnpikes. Puffs of smoke wreath hills and ridges. Orchards and wheat fields are dotted with the fallen. And Pickett's charge is once more repulsed, just as on July 3, 1863.

"The whole thing takes place on a table top in Westport, Conn., where a group of artists are devoting spare time to an ambitious project: an animated film version of the Battle of Gettysburg.
